

Since we last meet, I have visited the new housing estate built at the top of Hawkens Way in St Columb Major by Coastline Housing. A mixed development of part rent part buys and full rental social housing.

I have also meet with Senior Planning Officer Gavin Smith and Auria, the owners of Retallack Resort and Spa, to discuss the ongoing issues with English Nature over the dormice issue. It is hoped that this can resolved soon so that works can continue and the resort fully open for the coming 2022 season. Just a little background for you, an area of land was disturbed by contractors which should not have been touched. This caused the Dormice issue and Auria have gone above and beyond to put the matter right.

I have also meet with residents of Trevarrian and Adrian Drake, our Highways Manager, and he has agreed with many of the points raised by residents and Highways will undertake some remedial work. Funding for the other works needed will come from the Community Highways Budget. On that point the new administration has announced that the Community Highways Scheme will continue although the amount to each Network Panel area will be divided equally amongst each of the Electoral Divisions within said areas. A much fairer system in my view. Basically, it will be up to each Divisional Member to decide how and where monies will be spent and on which projects. I have made a commitment that traffic calming at Trevarrian will be a priority for me in the first wave of funding. I urge you to work with me on these measures. This is an agenda item and I'm sure Cllr Carter, who attended the meeting on behalf of the Parish Council will update you later in the meeting.

I chaired a meeting between residents of Sun Valley, Cornwall Council officers and Ovo, who are overseeing a national project to install mains gas to the site and others similar sites within Cornwall. There have been issues with these installations, but I am happy to report most have now been sorted. We will meet again in the new year to hopefully sign off the project.

I have attended a meeting of the Constitution and Governance Committee and chaired the quarterly meeting of Cornwall Councils Standards Committee, both at County Hall. Details of which are available on the Cornwall Council website.

I have met virtually with senior planning officers to discuss a number of planning matters within the Division. These remain confidential for now.

I have met with Anna Druce our community link officer to discuss the forthcoming agenda for the next Network Panel Meeting, in my roll as Chairman of the Network Panel.

I have officially opened the Man Shed as part of the new open garden installed by the Oasis Centre at St Eval. The shed was paid for by a grant from my Cornwall Councillors Community Chest fund. The Oasis Centre do sterling work within the Lan-pydar Benefice helping combat loneliness and operate many self-help groups.

Last evening, I attended St Wenn Parish Council meeting.

Today I attended (virtually) Cornwall Council's Cabinet meeting in my roll as Shadow Transport Portfolio Holder.

I will be attending the Remembrance Sunday Service in St Wenn on Sunday morning and then St Columb Major in the afternoon. Obviously, I can't be in two places at once, but I can assure residents I will attend St Mawgan's Remembrance Service and Wreath laying next year. Thankfully St Columb

always hold their service in the afternoon so I can alternate between the other two parishes in the years ahead.

Tomorrow I will attend a short service at the War Memorial in St Columb Major where I will present the St Columb Major Branch of the Royal British Legion its 100<sup>th</sup> anniversary pennant.
